## ACADEMIC STANDARDS

After admission to the Professional Program, students will be subject to the following academic standards that are more stringent than those for the University.

### 1. Academic Grade Policy

A letter grade of “C” or better is required for all prerequisites prior to taking subsequent professional program courses. A letter grade of “C” or better is required for all graded departmental prefix courses applied to the degree program.

### 2. Warning of Unsatisfactory Progress

Regardless of the overall g.p.a., a student with any “D” or “F” grade in any term will receive a “Warning of Unsatisfactory Progress.” This warning will be removed if the student earns “C’s” or better in at least 12 credit hours of core courses with no “D’s” or “F’s” during the next semester in residence.

### 3. Professional Program Probation for Unsatisfactory Progress

Regardless of the overall g.p.a., a student who has received a “Warning of Unsatisfactory Progress” will be placed on “Professional Program Probation for Unsatisfactory Progress” if he or she receives a “D” or “F” for any subsequent term, including any summer session.

A student placed on Professional Program Probation **may not** automatically enroll in any Department of Architectural Engineering and Construction Science courses.

The student may remain in the Professional Program after the probationary semester provided that the student has demonstrated the ability and desire to meet the criteria as set forth in the above paragraphs. The student placed on probation must take the schedule of courses assigned by the Academic Affairs Committee of the department and achieve a minimum g.p.a. as established by the Academic Affairs Committee, with no “D” or “F” grades during the “probationary semester” to be eligible to remain in the Professional Program and to take Professional Program courses.

Any appeal for removal of this probation may be made by filing an appeal form with the Department Head of Architectural Engineering and Construction Science at least ten calendar days prior to the first day of the semester. The Department Head may reject any application or may submit it to the Academic Affairs Committee for consideration. Any and all actions on applications submitted by the Department Head will be made by the Academic Affairs Committee of the Department in a hearing in which the student will be interviewed.

### 4. Dismissal from the Program

If a probationary student meets the requirements to remain in the Professional Program, any subsequent grade of “D” or “F” during any subsequent term will result in dismissal from the Professional Program *for a period of one semester*. During this period, the student cannot enroll in any courses offered by the department. After the one-semester dismissal, the student may be readmitted to the program with their course schedule and grade point to be earned to be established by the Academic Affairs/Professional Program Committee of the department. Failure to meet the academic standards outlined above in any ensuing term or failure to comply with the academic committee’s direction will result in permanent dismissal from the programs of the department.

\*\* The warning, probation, and dismissal actions referenced above are departmental actions that are separate and distinct from Academic Warning and Academic Dismissal as defined by the University General Catalog. Grades earned during an intersession will not be considered by the Department in the determination of unsatisfactory academic progress by the department.
