POSITION ANNOUNCEMENT
Department of Architectural Engineering and Construction Science

Assistant Professor, Full-Time Tenure-Track or Instructor, Construction Management

Functions: Candidate shall have a strong interest in teaching undergraduate construction management related courses in Architectural Engineering and Construction Science, with a focus in one or more of the areas of Construction Materials and Methods, Construction Estimating, Construction Project Management, and Applied Construction Technologies, in an effort to enhance and promote undergraduate education. Candidate will participate in student advising, student recruitment, and professional/industry organizations. The position is primarily teaching, however the candidate will pursue scholarly activity through undergraduate research and integration and application of current and emerging technologies and practices. Candidate will be expected to provide leadership for student organizations and competitions. Candidate must be an effective communicator and instructor, have demonstrated strong leadership and management skills along with a commitment to team building and continuous improvement, and possess the ability to work effectively with faculty, students, staff and industry.

Required Qualifications: Minimum of five years of relevant professional experience in the construction industry in the United States. A strong background in computer applications for construction projects. Demonstrated involvement with applied use of construction documents. Excellent oral and written communication skills. Applicant must be authorized to work in the U.S.

Desired Qualifications: Significant professional construction industry experience in a supervisory, project management, and/or estimating capacity. Significant undergraduate construction management teaching experience. Demonstrated ability to integrate project work across multiple areas of building/infrastructure construction. Experience with applied construction technology including construction graphics with emphasis on computer-aided design, REVIT, BIM, Navisworks, and/or other construction computer applications. Experience with Lean Construction and Integrated Project Delivery. Relevant professional licensing or certifications.

Education Level: An earned Ph.D. in an applicable engineering discipline is preferred. A Master’s of Science degree in Construction Management, Construction Engineering, Architecture, Architectural Engineering, or Civil Engineering, along with significant industry experience, will be considered for tenure-track assistant professorship. A relevant Bachelor of Science degree, along with significant construction experience, may be considered for the instructor level. If appointed at the instructor level, the successful candidate will be required to obtain a graduate degree within an agreed time frame.

Starting Date: Fall Semester 2014 or as soon as possible thereafter
**Salary & Benefits:** Salary is dependent upon qualifications. The University provides Retirement Plan, Medical, Vision, and Dental Plans, and Life Insurance.

**How to Apply:** Electronically submit cover letter, statement of teaching philosophy, resume, and contact information for three professional references to:

Tom Logan  
Associate Professor, Search Committee Chair  
Dept. of Architectural Engineering & Construction Science  
240 Seaton Hall, Kansas State University, Manhattan, KS 66506  
Phone: (785) 532-3580; E-mail: tdlogan@ksu.edu

*Screening of applications will begin June 23, 2014 and continue until the position is filled. Questions regarding the position should be directed to the search committee chair by phone or e-mail.*

**Department:** The Department of Architectural Engineering and Construction Science in the College of Engineering at Kansas State University is one of the nation’s leading engineering programs focused on the design and construction of buildings and building systems. The department offers a five-year ABET-accredited B.S. degree in Architectural Engineering, an M.S. degree in Architectural Engineering, and an ACCE-accredited B.S. degree in Construction Science and Management. The department currently has 17 faculty positions, approximately 600 undergraduate students, and 10 graduate students (see [www.ksu.edu/are-cns/](http://www.ksu.edu/are-cns/)).

**The College and University:** Kansas State University’s College of Engineering is the largest and most comprehensive engineering college in Kansas with a strong commitment to diversity and enrollment of approximately 3000 undergraduates and 530 graduate students (see [www.engg.ksu.edu](http://www.engg.ksu.edu)). Kansas State University is a Land Grant University and has been ranked among the top state and private institutions of higher education in Rhodes, Marshall, Truman, Goldwater, and Udall scholars since 1986. Current enrollment is over 23,000 students.

**The Community:** Manhattan is a progressive university community with a metropolitan population of over 110,000 and is located in the scenic Flint Hills of Northeast Kansas (see [www.manhattan.org](http://www.manhattan.org)). The community offers a friendly and safe environment and features excellent housing, outstanding schools, parks and recreation facilities, a wide variety of shopping and dining establishments, and short commute times. Manhattan airport provides convenient air connections to Chicago and Dallas.

Kansas State University is an EOE of individuals with disabilities and protected veterans. Background check required. Kansas State University actively seeks diversity among its employees.
